

Cloud Implications

Greg Ness
Senior Director
Infoblox Inc.

- **Network becomes more strategic**
- **Velocity of change accelerates**
- **Movement (VMotion) is the killer app**

Will force vendors to deliver ever larger containers of solutions with unified, automated management

- **Unprecedented network automation**
 - (e.g. DNS, DHCP, IP Address Management)
 - Network management becomes strategic

- **New cloud-specific considerations**
 - Security / Compliance
 - Lock-in/Interoperability
 - Availability, Scalability, Storage
 - Regulatory / Legal
 - Public / Private

**Everyone will eventually be
impacted...**
